### **NAPE Commits Support to U.S. New STEM Solutions**

Cochranville, PA (3/8/13) --- The National Alliance for Partnerships in Equity (NAPE) is proud to announce its support of U.S. News STEM Solutions 2013—The National Conference, taking place in Austin, Texas, this June. For the second year, leaders and visionaries will convene and advance the agenda for national change in STEM education, policy and workforce development. The conference promotes thought-provoking conversations about how communities, and the nation, will work together to advance the STEM future.

The conference theme—**Teach. Inspire. Hire.**—is a call-to-action. All participants will focus on specific outcomes that have an impact on filling current jobs and advancing the future of the STEM workforce.

As a recognized change-maker in STEM and supporting partner of the conference, NAPE plays an important role, helping to identify experiences relative to the STEM issue, particularly the underrepresentation of women and minorities in STEM fields. NAPE's involvement ensures that each facet of the STEM sphere remains top-of-mind.

*U.S. News & World Report* has enthusiastically welcomed NAPE's involvement. "We are so proud to have the support of powerful organizations in STEM, offering invaluable insight, resources and commitment. We look forward to their many contributions and involvement at the second U.S. News STEM Solutions in Austin," says Brian Kelly, Managing Editor of *U.S. News & World Report*.

NAPE invites you to help shape our nation's future and has negotiated a special program rate for its network of contacts who register using code: SUPPORT1.

To learn more about how you can help shape our nation's future by participating in STEM Solutions 2013, visit [www.USNewsSTEMSolutions.com](http://www.USNewsSTEMSolutions.com).

###

**About NAPE:** The National Alliance for Partnerships in Equity (NAPE) is a national, nonprofit consortium of state and local agencies, corporations, and national organizations that collaborate to create equitable and diverse classrooms and workplaces where there are no barriers to opportunities.
