Statement from CEO

In FY 2017 NAPE grew its programs and services to build educators’ capacity to implement effective solutions for increasing student access, educational equity, and workforce diversity.

Educators across the country engaged in professional learning through print resources, webinars, online courses, workshops, year-long engagements, and the annual Summit. NAPE helped elevate the dialogue with legislators, the Administration, and coalition partners at the federal level to ensure that equity remains central to the public policy debate and is included in Perkins reauthorization. NAPE members implemented an ambitious program of work to expand the network of equity professionals committed to ensuring that every student succeeds.

It was a great year!

Mimi Lufkin

Chief Executive Officer
Our Change Model

Equip Leaders
Change begins to happen when leaders are equipped and empowered with knowledge, tools, and strategies.

Engage Staff
Change continues to happen when all staff are engaged to share a common language about educational equity.

Encourage Discussion
Change is realized when staff are encouraged to dive deeper and continue the discussion.

Fast Facts

8,384 NAPE network

540 Participating schools

177 Professional development events

38 State members

29 National presentations

83 National briefings, hearings, and policy meetings attended
Highlights from FY17

**SECURED** Additional Funding to Provide Professional Development and Technical Assistance Across the United States

**EE-STEM Academy II**
$899,961, 3 years, NSF
NAPE will deliver an Advanced Technological Education program to high school and community college faculty who teach gateway courses that feed technician education programs.

**STEM Equity Pipeline Outreach Project**
$350,000, 2 years, Toyota USA Foundation
NAPE will provide research-based recruitment strategies, tools, and/or resources to high school and community college educators to increase the participation of females and students of color in Project Lead the Way and other STEM programs of study that lead to advanced manufacturing careers.

**Intermountain (IM) STEM**
$299,994, 2 years, NSF
This collective impact initiative, led by NAPE, will bring together a diverse group of organizations from six states to increase participation and close achievement gaps in STEM education, including CTE, as an NSF INCLUDES pilot.

**Texas Micromessaging Academy**
$261,000, 3 years
Texas Instruments Foundation
NAPE is delivering its STEM Equity Micromessaging Academy for educators in a Texas school district to increase the participation of students in STEM with an emphasis on girls and students of color.

**NSF INCLUDES**
$250,000, 1 year, NSF
With 12 other organizations, NAPE convened 50 collective impact experts for 3 days, conducted a national crowdsourcing survey, and gathered collective impact resources to inform the design of the backbone support networks as part of NSF INCLUDES.

**Florida Micromessaging Academy**
$50,000, 1 year, Lockheed Martin
NAPE implemented its Micromessaging to Reach and Teach Every Student™ professional development program with STEM teachers in Orange County Public Schools to increase the participation of girls and students of color in the pre-engineering pathway.

**DEVELOPED** New Professional Learning Initiatives

1. NAPE designed and is piloting in Iowa an interactive and engaging Virtual Learning Community solution that utilizes our new Learning Management System to facilitate a unique implementation of Micromessaging to Reach and Teach Every Student™.

2. NAPE designed three customized asynchronous modules that were integrated into FIRST’s internal Learning Management System to train FIRST coaches and mentors on how to create diverse, inclusive, and equitable Robotics Teams.

3. NAPE developed an Educational Equity Coaching Program to provide teaching and learning leaders, specialists, and coaches with the knowledge and skills to build teacher self-efficacy in creating equitable classrooms.
RELEASED New Toolkits and Accompanying Online Courses

ENGAGED in the National Dialogue to Advocate for and Promote Equity in Education and the Workforce

NAPE CEO Mimi Lufkin testified before a House Subcommittee on Early Childhood, Elementary, and Secondary Education at a hearing on “Providing More Students a Pathway to Success by Strengthening Career and Technical Education.”

NAPE actively supported House passage of the reauthorization of Carl D. Perkins Career and Technical Education Act through FY 2023.

NAPE Senior Policy Advisor Lisa Ransom participated on a panel for a U.S. Department of Labor Women’s Bureau presentation on “Bias, Barriers, and Breakthroughs: A Panel Discussion Exploring Challenges and Opportunities for Women and Girls in STEM.”

NAPE contributed to the report Title IX at 45: Advancing Opportunity through Equity in Education and participated on the related panel at a Congressional Briefing for its release.

NAPE held a Public Policy Day Town Hall on CTE with Congresswoman Pramila Jayapal; Waterloo, IA Mayor Quentin Hart; and representatives from the Boeing Company, IBM, and ICF.

NAPE conducted six implicit bias workshops at the October 2016 White House Conference for Inclusive STEM Education for Youth of Color.
EXPANDED Our Network of Equity Professionals

NAPE welcomed Alabama and Washington as new state members and 55 organizations as affiliate members. NAPE also introduced individual membership for active professionals, retired professionals, and students.

NAPE partnered with 20 state and national organizations in the 100kin10 ESSA Solutions Lab to support state and local education agencies as they implement STEM education through the Every Student Succeeds Act.

NAPE co-sponsored the first STEM is CTE Symposium at ACTE VISION 2016, where more than 300 CTE educators from across the country learned evidence-based strategies to increase the participation and success of girls and women in STEM through CTE.

NAPE hosted 305 attendees at the annual National Summit for Educational Equity, which featured keynote speakers Debjani Biswas, Heather Hackman, and Robert Simmons.

The State Leadership Institute brought together 78 leaders from 16 states that participated in the STEM Equity Pipeline grant. A presentation by two student leaders who pursued nontraditional programs through CTE reinforced the importance of mentors, role models, and leadership in Career and Technical Student Organizations.

As a teacher educator, preparing our preservice teachers for the diverse classrooms that they will have is a must! This training was amazing for me personally, a veteran teacher of 15 years, and has changed the way I view my students and how I talk to my future teachers about establishing inclusive classrooms supportive of each and every student.
After completing NAPE training, I led a campus-wide project using NAPE research-grounded strategies to increase student engagement in math. Algebra course requests increased from 134 to 212, the male/female ratio improved from 82/52 to 107/105, and racial and ethnic participation went up significantly. Improving the school experience for students who have been traditionally underserved and/or marginalized is one of my passions and NAPE has helped me further focus my lens on equity.

Adam Holman, Middle School Assistant Principal, Austin ISD

Hear from Austin ISD Science Supervisor, Charlie Gutierrez.

CLASSROOM TO CAREER: Closing the Gap

Today’s STEM high school students see their STEM courses as VERY or EXTREMELY important to their future careers.
